Summary

I am a senior-level web developer with extensive knowledge of supporting and developing web applications from scratch.

Hard-working web developer with a flair for creating elegant solutions in the least amount of time. Developed an ecommerce webapp, customer web portal, documentary launch website, and donations webapp for a local charity. Passionate about software architecture and cloud computing. Regular attendee of web developer meetups and hackathons.

I am skilled in:

- ~ Native desktop application development using ElectronJS, NodeJS
- ~ Web Development using PHP, Laravel, JQuery, Vue, React, and MySQL,
- ~ Cross-Platform Native mobile application development using NativeScript, Vue-Native

I have worked on many projects for US/Europe and Africa-based companies to grow their business. As a backend developer or frontend developer (mockups making, graphs describing scenarios, design implementation).

I have also freelanced on Upwork as a Top-Rated programmer for the most part of my web development career. Here's a link to my profile: <https://www.upwork.com/freelancers/~018229318f5dcae047>

I have been an active member of some remote teams around the world which strengthened my skills (Webicon, AP, NakamaNation, GFN).

I'm a dedicated hard worker with great communication skills and self-motivated in my work. I have also the ability to fast learn new things to meet company needs.

My coding style is rigorous about code quality with code refactoring by also following PSR and PHPDoc, JSDoc for documentation.

My skills include:

- Back-end: PHP 5.*, 7.*, Go, Laravel 5-8. Nodejs*
- Front-end: Vue.js, React, Electron, HTML, CSS, Bootstrap, JS, jQuery;
- Databases: MySQL, PostgreSQL, TablePlus, SequelPro, MongoDB, Google Firebase;
- Profound experience and technical knowledge of the LAMP stack;
- Solid understanding and OOP usage and design patterns;
- Building and integrating RESTful APIs;
- Unit testing;
- Linux, Ubuntu;
- Version-control system: git, subversion

I'm always available to work and complete coding tasks. Finally, I'm looking for new challenges / long-term projects / seeking any new opportunities to prove my skills and by way help you to have success on your small/big projects.
